

# The Guide to Nature Guides of Hong Kong

Discover more about nature in Hong Kong

By Robert Ferguson. [wildcreatureshongkong.org](http://wildcreatureshongkong.org)

# ***Look, find, discover, learn, love protect***

Hong Kong was once home to exotic mammals, including tigers, leopards, pangolin, and other large and wonderful creatures, and it provides the base for our nature walks, and our eternal hunt to find the best of Hong Kong's wildlife. There is still a way to go for wildlife education and promotion in Hong Kong, although there is a growing movement to protect the beauty of our natural environment and the animals that we live with. We want to be part of this ecological movement and celebrate Hong Kong's abundant natural world, and it seems natural that we should showcase the people and organisations who have a leading role in this.

**TO GUIDE:** A wildlife **guide** is a person who leads us, and will impart a deeper understanding of the local **wildlife** and its ecological needs, which may give visitors a more informed base on which to subsequently modify their behaviour. By looking and interacting more closely with nature we can learn more, and with that comes understanding and love, and a desire to protect our natural environment. "In the end we will conserve only what we love; we will love what we understand; and we will understand only what we are taught" (Baba Dioum, 1968)

## **Eco-tourism**

"Ecotourism is environmentally responsible travel and visitation to relatively undisturbed natural areas, in order to enjoy and appreciate nature (and any accompanying cultural features - both past and present) that promotes conservation, has low negative visitor impact, and provides for beneficially active socio-economic involvement of local populations". 1996 IUCN (The World Conservation Union).

## **Sustainable**

"Being able to meet the needs of present generations without compromising the needs for future generations."

## **Why a Guide?**

My wildlife walks and experiences are always deeply enriched by having a guide with me, as they are key to the element of "discovery" which makes nature tourism so fulfilling, and leaves us so full of wonder. These experts can share awe inspiring tales, and fascinating facts about the creatures around us, and are at the forefront of protecting those without a voice; so I began to compile a list of individuals, organisations, and places that offer some of the best experiences that Hong Kong has to offer.

## The Guide

I sent 9 questions to all the organisations and individuals I could find who qualify as nature orientated guides or organisations. If they replied I included this information. Where I have personal experience of the tour I have mentioned this; otherwise caveat emptor applies, and you should do your own research. Please do let me have feedback good, or bad, to be included in future updates.

***This guide is free to download, share, and use; Please mention the guide when contacting any organisation listed here.***

## Wildcreatures Hong Kong (and some self promotion)

I have been writing a daily blog about wildlife and nature in Hong Kong since early 2018; You can follow this on Facebook, [Wildcreatures Hong Kong](#) or join the many growing subscribers who prefer a daily e-mail. Simply go to [www.wildcreatureshongkong.org](http://www.wildcreatureshongkong.org) and sign up.

In early 2020 I published a 100 species ID guide to some of most common and interesting creatures that you are most likely to see on your hikes and walks.

### WILDCREATURES IN HONG KONG BOOKLET.

A fun, 30page photo guide to many of the common wild creatures in Hong Kong. With over 100+ species identified, fun facts and observations, a great companion for your hikes and walks. Sections on birds, mammals, amphibians, reptiles, butterflies, dragonflies, and other insects and arthropods that we can see all around us.

What is your key focus: Nature \*\*\*\*\*. Wildlife \*\*\*. Walking/Hiking. Adventure \*\*\*\*\*

**Do you cater for families/children?** We cater largely to kids for outdoor education, university students for leadership camps, Kids and families for family camps, kids for surf camps. We run corporate programs for leadership training. Tourists, usually adults, come along for the kayak trips.

**Is this English or Chinese language or both?** English is the primary medium of instruction, we do have Chinese guides for family, surf or kids camps, and kayak trips.

Describe/promote your organisation in 100 words:

A-Team Edventures seeks to connect you to the natural world, using outdoor activity as the vehicle to get you into nature with hands-on immersive experiences. Whether surfing, kayaking, camping or seeking life in the intertidal zone, there is always something interesting going on at A-Team's camps and activities!

Best dates of the year and times of the day

The summer months are good for our outdoor adventure camps with kids, while spring and fall are great for our school outdoor education programs. Many people think that summer time is the best time for kayaking, but January is usually the ideal month to be on the water - the skies are blue, the weather is warm for exercising and the nights are great to spend by a campfire! Family camps can happen anytime the whole family is ready to get out into nature.

Typical and example pricing: Our kayak day trips and camps all start at HK\$900/person/day, with discounts for groups.

Are you Eco-Friendly? How? One sentence. We aim to lead by example and try to educate our participants about how they can effect change in their own lives.

**Is this English or Chinese language or both?** Both

**Describe/promote your organisation:** Hong Kong Children's Discovery Museum ("CDM") is the city's first museum dedicated to child-led learning through play. As a venue for families and school groups to explore, create, and express themselves together, CDM showcases over 40 hands-on interactive exhibits that uniquely reflect the city's people and culture. Exhibits incorporate content in the areas of language and literacy, S.T.E.A.M (Science, Technology, Engineering, Arts, and Math), culture, and environmental awareness/stewardship. As a Section 88 charitable organization, everyone from 0 to 100 years old are encouraged to join in the play!

**Best dates of the year and times of the day:** All year round!

**Typical and example pricing:** Admission pricing is charged per person to experience CDM for 1.5 hours. Please our website for the latest pricing.

**Are you Eco-Friendly?** We strive to be eco-friendly, by recycling our materials and always pushing ourselves to create new exhibits by using existing materials. Staff have also started a friendly competition to see who can use the least amount of take out containers!

## Company name: **Hong Kong Dolphinwatch**

**Speciality:** taking people on eco-boat tours to watch the wild, pink Chinese White Dolphins in Hong Kong. Ecological tours to see wild, native, Indo-Pacific humpback pink Chinese White Dolphins since 1995 with go-again guarantee

**Website and/or Facebook address:** [hkドルフィンウォッチ.com](http://hkドルフィンウォッチ.com), <https://www.facebook.com/Hong-Kong-Dolphinwatch-97790380763/> Contact details: TEL : +852 2984 1414 1528A Star House, 3 Salisbury Road, Tsim Sha Tsui, Kowloon. [info@hkドルフィンウォッチ.com](mailto:info@hkドルフィンウォッチ.com)

**What is your key focus?-** nature and wildlife

**Do you cater for families/children?** Our boat tours are suitable for people of all walks of life and ages. We have individuals, families, schools and groups joining us.

**Is this English or Chinese language or both?** Both, our colleagues are fluent in English, Cantonese, Putonghua and Japanese

**Describe/promote your organisation:** We run educational and fun boat tours on Wednesdays, Fridays and Sundays throughout the year! Our colleagues are knowledgeable and passionate about the dolphins, they will give detailed presentation on the animals and we offer information package to everyone. Our sighting rate is about 97% of our trips, one of the world highest, if not the highest. And we offer free go-again if no sighting.

Hong Kong Dolphinwatch has been running trips to see the Chinese White Dolphins (*Sousa chinensis*) since 1995 with the aim of raising awareness about the pink dolphins in the wild in Hong Kong waters. The dolphins are threatened by the changes brought about by the rapid economic development in the Pearl River Delta region, and their future remains uncertain. We emphasise responsible ecotourism, and follow a code of conduct to minimise disturbance to the dolphins.

**Do you cater for families/children?** Yes

**Is this English or Chinese language or both?** Mainly Cantonese

**Describe/promote your organisation in 100 words:**

HKTraveler was established as a hiking website in 2000, and has gradually developed its business as comprehensive nature education programmes and local eco-tours to students, teachers, communities, cooperates, public, HKSAR government and all. Hong Kong Ecotourism & Travels Professional Training Centre is subsidiary to HKTraveler. It is believed that appreciation and knowledge in nature could bring attitude and behavioural change in humans, to achieve the goal of preserving nature.

The range of services diversifies from themes of ecology, geology, organic farming, indigenous cultural practices, and rural revitalization etc. Collaborations on customised programs are welcome.

**Best dates of the year and times of the day** Variable.

**Typical and example pricing** Variable.

**Are you Eco-Friendly?** With the motto of “Enjoy the nature, return to the nature” 樂在自然，回饋自然，we respect the nature by providing education services and implement daily practices.

## Company name: **Hong Kong Wetland Park**

<https://www.wetlandpark.gov.hk/en>. Out at Tin Shui Wai, this is a great place to visit, and I have been many times. You can get close to a great array of dragonflies and butterflies, and some birds too. It is great for kids, and is the home of Pui Pui the crocodile.

This is a government run “nature” facility, and is perhaps a view as to what could happen in Long Valley. From their website “The mission of the Hong Kong Wetland Park is to foster public awareness, knowledge and understanding of the inherent values of wetlands throughout the East Asian region and beyond, and to marshal public support and action for wetland conservation. The Hong Kong Wetland Park will also be a world-class ecotourism facility to serve both local residents and overseas tourists”.

**Do you cater for families/children ?** Yes for both.

**Is this English or Chinese language or both?** Available in both English and Chinese.

**Describe/promote your organisation:** In a time of severe global crisis - including the inter-related issues of widespread disconnection from nature, each other and self; the ever-increasing exploitation of and unwise reliance on the world's dwindling resources to support unsustainable lifestyles; climate change; shrinking of natural habitats and species loss - KFBG raises awareness, undertakes rigorous science-based species conservation and ecosystem restoration, and offers new ways of thinking and living to respond to the world's problems.

**Best dates of the year and times of the day:** KFBG is open Monday through Sunday, from 09:30 - 17:00. It is HK\$30 for adults and half price for kids under 12.

**Are you Eco-Friendly?** KFBG has been working to harmonise our relationship with the environment by reducing the ecological footprint of our operations.

We hope to bring nature closer to visitors, increase general awareness related to wildlife conservation and illegal wildlife trade, and inspire respect and appreciation of animals. We are hoping that through our event, visitors are empowered to make informed conservation choices and live a greener lifestyle.

**Wildcreatures note:** One of my fave, fave places in Hong Kong. Spectacular views, and such amazing biodiversity, and great education programmes, as well as their animal rescue and rehabilitation programmes. Full disclosure: I have worked under contract with Kadoorie to supply photographs.

Top tip: take the bus up and walk down. It is very, very, very steep.

Top tip 2: On the first, second and third Sunday of every month, there is a not to be missed "Animal Encounter" activity and a "Discovery Table" to give visitors a close experience with animals. Get there early to register and make sure you reserve your place. For more details: <https://www.kfbg.org/eng/events/animal-encounters.aspx>

**Describe your organisation:** Jointly established in 2008 by the Environmental Protection Department and The University of Hong Kong, our revitalised historic centre supports nature exploration through exhibitions, ecological tours and green workshops. Through partnerships with universities, government and the wider community, we provide public experiential environmental education to build a community living sustainably and harmoniously with nature.

**Best date of the year and times of the day:** All year round. The Centre is opened to the public free-of-charge. For group activities, most of them are free for local schools and charities. For participants from private sectors, prices range from \$80-150 per person.

**Is it Eco friendly?** Yes, we provide public experiential environmental education to promote nature conservation and sustainable living.

**Wildcreatures note:** Another of my fave places in Hong Kong, as I used to walk this area and up to the Peak, always finding an amazing diversity of flora and fauna. They have some great education programmes, as well as night walks, and do check out their wonderful colonial building. Full disclosure: I have worked under contract with LFS to supply photographs.

*"Conservation Matters. We Love Nature*

*Nature blesses us with a supply of resources and natural processes. It provides water, food and air. It cycles nutrients and controls the climate. Nature enriches and enlightens us with its beauty and vigour. We enjoy its vibrant colours, striking shapes, spirited sounds, refreshing fragrance, delicious tastes and pleasant textures. Product designs and cultural works borrow imagery from animals, plants and natural landscapes. We have fun visiting and share memories of mountains, beaches and seas. As a part of nature, humans share all these blessings with other living things.*

*It is nature that nurtures us. It delights us with awe and wonder.*

*We need it and we love it, but are we showing it our respect?" Is that a rhetorical question?*

**Describe/promote your organisation:**

Freelance nature guide and award-winning photographer. I provide custom bespoke wildlife tours and photography workshops in HK and abroad.

Hong Kong has an amazing diversity of animals, but most people aren't aware of them, because most only come out at night. This private tour will take you into HK's nocturnal world, with a chance of seeing fireflies, snakes, frogs, porcupines, owls, civets, and much more. Come experience the real nightlife of Hong Kong!

**Best dates of the year and times of the day:**

All year, depending on what you would like to see. Summer and autumn are best for snakes, frogs, insects. Winter for birds. Medicinal plants can be found year round.

**Typical and example pricing:** Variable, as I offer custom, bespoke tours, but it's typically 1000-3000 HKD per day.

**Are you Eco-Friendly?** Yes, my tours comply with the highest animal welfare standards - absolutely no baiting, touching, stressing out wildlife, or excessive flash.

**Is this English or Chinese language or both?** Our website for now is only available in Chinese, but our tours, workshops and talks are available in both languages.

**Describe/promote your organisation in 100 words:**

V'air Hong Kong is an environmental education social enterprise with the aim of promoting low-carbon local tourism. V'air was established in 2015, when our team captured the championship at the 2015 United Nations Climate Change Conference (COP21), Hong Kong Tertiary Schools COP21 Challenge. We see the serious impact of air travel on people's carbon footprint. Thus, we encourage Hong Kong people travel locally, with the aim of reducing carbon footprint per capita. We take the role of exploring local attractions, organizing local tours and education workshops.

**Best dates of the year and times of the day:** weekends

**Typical and example pricing:** around \$100 per person for a 4 hour tour, with minimum 20 people per tour.

**Are you Eco-Friendly?** Yes, we promote "leave no trace principles" in all our outdoor activities, protecting the beautiful nature in Hong Kong.

Further notes: [Local & travel website](#) · [Environmental conservation organisation](#)

It was a website conceived by locals by encouraging local tourism to reduce carbon emissions. "V'air" is actually the near-figures of the green "Vert" in French; the integration of green elements into aviation means that we hope to bring the low-carbon local travel experience similar to outbound travel to Hong Kong people through environmental protection. Our department is a group of college students who love to play around and love nature. We hope that everyone can learn about the relationship between Hong Kong and nature and relax the distance between the city and low-carbon life while enjoying Hong Kong. If everyone in our place can change their living habits a little, and start to appreciate everything around them; they will live happier, and the world will become better and better!

If you have any questions about this booklet, if you would like your organisation to be included, or good or bad feedback about any organisation include here, or anything else, simply e-mail me at [info@wildcreatures.org](mailto:info@wildcreatures.org)

1. First on the list is of course our very own daily blog about nature and animals and related stuff in Hong Kong. Get it by email every day, or see it on Facebook in English or Chinese.

[www.wildcreatureshongkong.org](http://www.wildcreatureshongkong.org)

Facebook: English: Wildcreatures Hong Kong. Chinese: 香港野 Hong Kong WildCreatures

2. Also our own ID website, with lots of local creatures, and links to more information and fun facts.

[www.wildcreatureshongkong.info](http://www.wildcreatureshongkong.info)

3. Our sister site, of which I am very proud to be a co-author along with Adam Francis, who actually does most of the work.

See this collection of great photos and facts and videos. [www.hongkongsnakeid.com](http://www.hongkongsnakeid.com)

## FACEBOOK

4. THE most amazing and fun page about snakes and Not A Snake But posts, so really it covers all creatures, but really, mostly snakes in Hong Kong. Great fun.

5. If you want info about arthropods, insects, and smaller critters including bugs then go to this page.

6. er, lets go to ....

## 7. **AFCD** the govt's own resource....from AFCD, with its own biodiversity database,

**ALL HERE:** <https://www.afcd.gov.hk/english/conservation/hkbiodiversity/hkbiodiversity.html>

8. **Aquameridian Conservation & Education**. Changing cultural habits that can wipe out endangered species and destroy natural habitats. Look out for beach clean ups and educational programmes.

9. Hong Kong Lepidopterists' Society. [www.hkls.org/](http://www.hkls.org/)

10. Welcome to *Birding Hong Kong*, a website about all things to do with birds and birding in the Hong Kong SAR. <https://www.birdinghongkong.com/>

11. **iNaturalist**. Reviewing nature and guides in Hong Kong would not be complete without a mention and review of the amazing, brilliant (you can tell I like it?) iNaturalist App.

Find out more about it here <https://www.inaturalist.org/>.

I use this App ALL THE TIME when out and about, to ID and to record species. It has a very clever AI which helps ID species, and there are experts who can follow up later and confirm what it was you saw. It also all goes into the Citizen Science database, helping us record and understand more about our natural world.

Every year there is an international bio-blitz challenge; for more info contact **Shaun at** [smartin@wwf.org.hk](mailto:smartin@wwf.org.hk)

# FAQs

## Who put this together?

Robert Ferguson is an award winning photographer, with images appearing in international and local magazines, books, and online media.

He currently runs his own daily wildlife blog at [www.wildcreatureshongkong.org](http://www.wildcreatureshongkong.org), (on facebook, in English *wildcreatureshongkong* and Chinese 香港野 *Hong Kong WildCreatures*), and works on content and wildlife photography with different local conservation groups. These have included: Kadoorie Farm and Botanical Gardens, Lung Fu Shan Environmental Education Centre, Aquameridien, The Children's Discovery Museum, and AFCDC.

He is also the co-author of [www.hongkongsnakeid.com](http://www.hongkongsnakeid.com) the complete information and ID website about snakes in Hong Kong.

Robert has lived with his family in Hong Kong for the last 25 years, working in Media, most recently for The Economist and Reuters. He left full time employment in mid 2018 and now volunteers part time with a foodbank NGO, Feedinghongkong.

## Why did I do this?

This was born as part of larger media idea to promote responsible, sustainable wildlife tourism, and to inspire people to connect more with nature, as part of a process of: Look, find, discover, learn, love, protect.

## Is it free?

This guide is free to download, share, and use; Please mention the guide when contacting any organisation listed here. If you like the guide, and use it, please think of making a donation either by going to <https://www.wildcreatureshongkong.info/donate> or by EPS transfer (contact me at [info@wildcreatures.org](mailto:info@wildcreatures.org)) - or perhaps you/your company would like to sponsor future issues?

## Can I share it?

Yes! Please do, the more people who use it to book guides the better.

## Can I print it?

Sure...just a personal copy though.

## What if I find something wrong?

Please do let me know on [info@wildcreatures.org](mailto:info@wildcreatures.org), and I apologise in advance for any errors that may have crept in. They will be updated as soon as they come to my attention.
